Content Decisions

- Not too much content to overwhelm the user
- Simple navigation categories for friendly user experience
- Page to showcase my work
- Blog to expose my knowledge
- Contact form as a follow-up method for the user
- Utilised a Trello board to organise content/tasks before committing to work.

— — —

Technical Decisions

- Flexbox for responsive design
- Consistent HTML & CSS classes for development consistency
- Semantic component use for native design and readability
- Copyright-Free image use
- FontAwesome library for icons (social media links)

Technical Decisions - Formspree Integration

— — —

- Developer-friendly service for backendless contact form functionality
- Receive emails at my personal email address instantly.
- Completely customisable form.
